

Workshop workstation L. 150 cm h870_09

Fixed workbench in steel and beech multiplex wood (1500x800 mm) with 4 perforated panels, 3-drawer unit and floor-fixable structure.

The **fixed workbench** is a professional solution designed to optimize ergonomics and organization in industrial operating stations. The extremely robust structure integrates a vertical and horizontal storage system that allows solving the problem of tool clutter on the work surface, keeping every instrument within reach.

Technical features

- **Overall dimensions:** L. 1500 x P. 800 x h. 870 mm.
- **Worktop:** Made of beech multiplex wood with a thickness of 40 mm, ideal for heavy-duty mechanical work.
- **Lower shelf:** In plywood with a thickness of 25 mm for the storage of heavy materials.
- **Supporting structure:** 2 powder-coated steel supports with an upper profile with 6 slots.
- **Stability:** Perforated plates at the base of the supports for a secure and permanent anchoring to the ground.
- **Vertical organization:** 4 perforated panels supported by 3 dedicated uprights for housing hooks and tool holders.
- **Drawer system:** 1 drawer unit consisting of 3 drawers with differentiated heights (50 mm, 100 mm and 150 mm) and a capacity of 75 kg per individual drawer.
- **Customization:** Metal components configurable with RAL colors to be chosen from the company color chart.
