

Brass rotating brush half moon shaped h0954

Brush made of brass rotary-shaped crescent

Brush with stainless steel handle and scraper scale. The shape of the brush, crescent and for more swivel, easily removes the ash. The above features of the brush h0954 make it particularly suitable for the wood oven.

The crescent within easy reach of the most difficult to reach, while the bristles of the brush remove the ash residue in the oven or other cooking tools, even in the part where there are the logs.
