

## Broom cupboard with two doors in galvanized plasticised h11110

Broom cupboard with two doors constructed in sheet galvanized plasticised.

Broom cupboard with two doors constructed in sheet galvanized plasticised. This material offers excellent resistance to weathering and moisture in general than conventional cabinets painted sheet metal.

Broom cupboards are useful both to individuals looking for a solution to store brooms and detergent on the balcony, both companies, designed as dining activities or offices that need a special compartment for storing the need for cleaning.

These cabinets are well suited for use in cellars, gardens, garages and balconies, or other wet locations.

This broom cupboard, in particular is equipped with an internal partition with three compartments adjustable shelves, with lock and key, useful when, for example, the cabinet brush holder is positioned in the garden, and adjustable feet.
