

Modular shelf in stainless steel 60x40xh180 cm h11129

Modular shelf 4 smooth shelves. The basic element in bolt. Italian product.

Shelves made of stainless steel AISI 304, a very resistant steel, consisting of a particular mixture of iron, chromium, carbon and other elements that make it particularly resistant. In particular, the AISI 304 stainless steel is characterized by:

- excellent resistance to corrosion
- ease of cleaning
- good hygienic coefficient
- easy to work
- lifespan

The structure is made of uprights angled 35x35 thickness 15/10 mm.

The shelves are smooth, the thickness of 8/10. The shelving is full of bolts and plastic feet, fine to avoid damaging the floor. The edges are cut resistant and glossy finish.

Specifications:

- Italian product
