

Modular shelf in stainless steel 100x40xh180 cm h11133

Modular shelf in stainless steel AISI 304 with a base element bolt. Four solid shelves.

Modular shelf with base element bolt made entirely of AISI 304 stainless steel, also called 18/8 stainless steel for its specific composition of chromium (18%) and nickel (8%). This characteristic makes it especially used for cutlery, kitchens and sinks. The AISI 304 stainless steel is characterized by:

- excellent resistance to corrosion
- ease of cleaning
- good hygienic coefficient
- easy to work
- lifespan

The shelf has 4 smooth shelves with a thickness of 8.10. The structure is made of uprights angled 35x35 15/10 in thickness. The shelf also has anti-scratch edges and plastic feet to avoid damaging the floors.

Specifications:
