

Modular shelf in stainless steel 110x40xh180 cm h11134

Shelves 4 stainless steel shelves. The basic element in bolt. Italian product.

Modular shelving bolt made of AISI 304 stainless steel, an austenitic stainless steel of high quality containing a chromium content of 18% and a percentage of 8% nickel. For this reason the stainless steel AISI 304 18/8 stainless steel is also called. And the steel used for more hoods, sinks, cutlery, etc., since it possesses:

- High resistance to corrosion
- ease of cleaning
- good coefficient of hygienic
- ease of processing

The basic element is a bolt with 4 smooth shelves with a thickness of 10.8. The uprights have a height of 180 cm and a thickness of 15/10. The shelving is equipped with bolts and plastic feet to prevent damage to the surfaces. The structure is made of uprights angled 35x35.

The anti-cut edges provide added safety.

Specifications:
