

Shelf with 4 slotted shelves 70x40xh180 cm h11142

Shelves made of stainless steel AISI 304 with 4 shelves slotted. Italian product.

Modular shelf in stainless steel AISI 304 austenitic steel of high quality containing 18% chrome and 8% nickel. In fact, the AISI 304 stainless steel is also referred to by the abbreviation 18/8 in reference to the amount of chromium and nickel. It's the most widely used type of steel cutlery, hoods, cookers, sinks and professional equipment in general.

The modular structure of the shelf is bolted with 4 shelves slotted 9x32 thickness of 8.10. The shelf is full of bolts and plastic feet, which prevent damage to the floor and make it easier to move the shelf.

The security is guaranteed by the edges of the shelf chainsaw.
