

Shelf with 4 slotted shelves 80x40xh180 cm h11143

Shelving 4 shelves slotted. Italian production.

Modular shelf with 4 shelves slotted bolt. Made entirely of AISI 304 stainless steel, an austenitic stainless steel of high quality containing nickel and chromium. E'altresi said stainless steel 18/8 for his composition of 18% chromium and 8% nickel. E 'used in the creation of sinks, hoods, cutlery and industrial production due to:

- excellent resistance to corrosion
- excellent ease of cleaning
- good hygienic coefficient
- ease of processing
- lifespan

The structure is made of uprights angled 35x35 thickness of 9/32 15/10 with slot for mounting bolts. The 4 shelves are slotted in thickness 10.8. The shelving is provided with bolts and pins in plastic, to avoid damage of the bearing surfaces.

Specifications:

- Italian production
- modular shelf
- structure to bolt
- made of stainless steel AISI 304
- 4 shelves slotted 9x32 - thickness 8.10
- uprights 15/10
- complete with bolts
