

## Shelf with 4 shelves slotted 110x40xh180 cm h11146

Shelving structure with a bolt. Four slotted shelves. Italian production.

Modular shelf made of stainless steel AISI 304 easy to install. The AISI 304 stainless steel is an austenitic stainless steel is characterized by a composition of 18% chromium and 8% nickel. From this peculiarity was born the nickname steel 18/8.

It is usually used in the manufacture of cutlery, hoods, sinks and professional equipment in general thanks to:

- excellent resistance to corrosion
- ease of cleaning
- good hygienic coefficient
- ease of washing
- lifespan

The structure is made of uprights angled 35x35, 15/10 thick. The 4 shelves are slotted and have a thickness of 9x32 8/10. The shelving includes bolts and plastic feet. This shelf is suitable for industrial and / or professional. It then has cut resistant edges.

Specifications:

- Italian product
- modular bolt
- material: stainless steel AISI 304
- 4 shelves slotted 9x32 - thickness 8.10
- thick uprights 15/10
- bolts included
- plastic feet
- anti-cut edges
- glossy finish
- height 180 cm
- width 110 cm
- depth 40 cm
