

Washbasin with ceramic pedestal h11611

Washbasin with ceramic trap of Italian production, available in one hole.

Washbasin with ceramic trap of Italian production, available in one hole. Featuring a classic, and timeless, this basin with siphon cover looks good in any environment.

The basin and the siphon are made of porcelain, sanitary ware (vitreous china), a ceramic product to be preferred because it has a low coefficient of thermal expansion and considerable chemical and mechanical resistance; consists of an agglomerate vitreous compact made from mixtures of kaolin, clay, feldspar, quartz and fired at over 1200 ° C.

Specifications:

- basin size (65x52xh22 cm)
- complete with siphon
- sink hole
- Material: sanitary ware
- Italian production
