

Bench in wood and metal h14016

Bench for urban wood and iron. Dimensions 180x89x80 cm. Italian production

Bench for urban wood and iron. Dimensions 180x89x80 cm. Italian production.

Structure:

- No. 02 shaped supports in galvanized iron plate mm. 50 x 8; each support is provided, in the lower part, of a bow connecting in galvanized iron plate mm. 50 x 8;
- seat and back made of No. 12 planks of pine wood (section mm. 60 x 40), rounded to the four corners. The boards are equipped with holes for fixing on special shapes in galvanized iron plate mm. 50 x 8, which gives the anatomical shape.

Finish:

- supports galvanized and coated baked epoxy powder color "gun barrel";
- planks impregnated in autoclave with non-toxic salts, treated with stain and glossy finish for outdoor use.

Fixing:

- the supports are fitted with perforated plates for anchoring to the ground by means of anchor bolts and anchors;
- the bench is supplied in kit assembly, stainless steel hardware and installation instructions.

Size:

- height 89 cm
- width 180 cm
- depth 80 cm
- seat height 46 cm
