Wash basin with ceramic bathtub with built-in slide. Available in different sizes with height 88 cm. Made in Italy

Doors and frame melamine waterproof, which is a waterproof material that does not absorb water. The melamine is a panel of wood particle board coated on one side, or on both sides, with melamine paper, which is a synthetic material made of thin sheets of paper (around a tenth of a mm) impregnated with melamine resin. The use of such a card causes the coated panel is often also called melamine panel (or melamine) The panel can be formed over that of chipboard (also from recycled timbers), also from hardboard, from plywood, wood printed, OSB or MDF. It is characterized by remarkable qualities of hardness and resistance to scratching and solvents on the surface, makes this product very much used in the world of design.
