

Lamp post made in die-cast aluminum with 2 lights h16887

Lamp post made in die-cast aluminum with 2 lights

Outdoor lamp post made of aluminum with two lamps in the shape of a bell facing downward. The diffuser is made of transparent polycarbonate.

The connection for the bulb is E27.

The lamp has a degree of protection IP44. IP is a code that summarizes the level of protection of electrical equipment against accidental or intentional contact with the human body or with an object, and protection against water and weather, so important especially when you have to build a plant outdoors. It is important that the entire apparatus electrical / optical of our product is adequately protected from the elements (dust, flies, rain, humidity, etc.) in order to maintain the operation in time. At the end of the fixed IP followed by two digits, the first digit indicates the protection against access of solid bodies, the value of 4 indicates that the equipment is protected against solid bodies larger than 1 mm. The second digit indicates the protection against access of liquids. The value 4 indicates that the device is protected from splashes.

The lamp is Class 1 insulation, the insulation class is a value that indicates the degree of protection from the risk of electric shock due to a fault. Appliances with protection class 1 are those in which in addition to basic insulation is a further protection from the connection, with the classic yellow-green cable with the grounding system of the electrical installation of the building.

Features:

- height 235 cm
- Class 1
- type of connection for the bulb E27
- degree of protection IP44
- voltage 230v 50hz
- width 82 cm
- two lights

INFO

- **Width** 82 cm
- **Material** aluminum
