

Rectangular above ground swimming pool 3.00x2.15x0.70 mt kit h17411

Rectangular above ground swimming pool. Dimensions 300 x 215 cm H 70. The set includes group filtering cartridge, pool filter and connection kit for water purification products.

Rectangular above ground swimming pool, with kit included.

The pool consists of an essential quick to assemble frame on which you put a bathtub in the fabric of high tenacity polyester coated on both sides Anti-UV treated and algae. The characteristics of the polyester as well as excellent toughness and resilience, high abrasion resistance, heat, a high modulus of elasticity and a minimum recovery of moisture as well as good resistance to chemical and physical agents. Galvanized steel and painted with special products that enable the pool long hours in extreme temperatures. There are no screws and bolts, and then tighten the mounting is simple and fast. Choose a ground pools is the most appropriate decision to have at hand a corner of relaxation and well-being if you have an outdoor space reduced, or you want to accomplish in a short time to be able to disassemble a pool at the end of the season. Another important feature and should not be underestimated is that these pools do not require building permits and are not subject to taxes.

The kit includes:

- Swimming pool
- Group cartridge filter 2,5 m3 / h
- Connection kit for pool filter
- Start Elite kit (1 liter algaecide, 1 kg dichloro beans, ph tester / chlorine dispenser)

The cartridge filter for swimming pool allows to obtain the maximum filtration surface, with minimum encumbrance. The cartridge inside the filter consists of a cylinder composed of a range of filter paper folded over itself. The large surface area of ??filtration thus obtained allows to obtain a movement twenty times slower than a sand filter.

The cartridge filter does not require a sewer connection. The cartridge cleaning is done manually, with a jet of water under pressure after removing it from the filter. In this way, you avoid wasting unnecessarily large amounts, water.

The Elite Start Kit is the complete kit for starting pools up to 25 m3.

Specifications:

- Overall dimensions on the ground 3:30 x 2:40 m
- Dimensions bathtub 3:00 x 2:15 m
- Depth 0.70 m
