

Cover for above-ground pools in woven polypropylene 3:00 x 2.15 mt h17421

Universal coverage for above-ground pools of rectangular shape in polypropylene fabric. Italian product.

Cover in polypropylene fabric for above-ground pools of rectangular shape with maximum dimensions of 3.00 x 2.15 meters.

The closure takes place thanks to an elastic or in the presence of eyelets at the edge.

The cover can be used all year round, in summer to prevent the pool is dirty due to insects, dust and leaves and to maintain a constant water temperature, both in winter to protect it from the elements.

The constant use of the cover allows significant cost savings because it will require smaller quantities of substances for cleaning and less time filtering the water.

Specifications:

- polypropylene material
- for above-ground pools rectangular
- used for swimming pools with maximum dimensions equal to 3.00x2.15 meters
- Italian production
- ideal year round
