

Cover for above-ground pools rectangular polypropylene 7.80x 3.90 mt h17422

over universal for above-ground pools of rectangular shape in polypropylene fabric. Italian product.

Cover in polypropylene fabric four seasons for above-ground pools of rectangular shape with maximum dimensions of 7.80 x 3.90 meters. Coverage is also useful for winter use because thanks to the polypropylene a material resistant ultraviolet rays and atmospheric agents, ensures optimum coverage throughout the year. Used systematically decreases hours of filtering and consumption of chemicals needed to clean the pool.

During the summer, the cover prevents evaporation of water during the hottest hours and keeps the temperature during the night.

Specifications:

- polypropylene material
- for above-ground pools rectangular
- used for swimming pools with maximum dimensions equal to 7.80 x 3.90 m
- Italian production
- ideal year round
