

Isotherm pool cover floats 7,80x3,90 mt h17429

Isotherm cover for pools floating rectangular in shape. Italian production.

Isotherm cover for pools floating rectangular in shape with maximum dimensions of 7,80x3,90 mt.

The systematic use of the cover allows a real saving hours of water filtration and the use of the quantities of chemicals needed to maintain the pool itself.

Keeps hot the 'water in the cooler hours and helps prevent the evaporation when the pool is not in use and is beaten by the sun.

Preventing foreign objects (leaves, insects, dust) from entering into the tank and dirty water.

The roof rests on the water with the bubbles facing the water.
