

## Floating cover for swimming pools oval 7,00x3,50 mt h17451

Isotherm pool cover floats oval. Italian product

Isotherm pool cover floats oval-shaped with maximum dimensions of 3.50 m 7,00x.

The isothermal covers for pools meet the requirements of energy saving and maintenance of the heat stored in the water, allowing a significant decrease in operating costs. In fact, it decreases the use of the heating system when the tub is not in use and blocking water evaporation eliminates the refilling and significantly reduces the use of chemicals, with significant cost savings.

The roof rests on the surface of the water with air bubbles in contact with water.
