

Toaster oven 6 slices 6 calipers with quartz resistances h2326

Toaster for professional use. Bakes, broils and toasts any food. Rapid heating due to resistance Quartz

Professional sandwich maker is ideal for multi-purpose functions not just grill and toast, it can cook any food. The toaster has heating elements in quartz, which are distinguished from the common resistance of stainless steel because they heat up much faster.

The structure is made of stainless steel instead, which counts among its main features, the corrosion resistance. It's also resistant to fire and heat, hygiene, and is aesthetically pleasing and 100% recyclable.

The calipers and grills are designed to professional use, as well as the crumb tray is removable and dishwasher safe for maximum hygiene and maximum convenience.
