

Electric hand dryer energy-saving and environmentally friendly h3380

Towels risparmio electric energy with sensor boot with auto-off safety, light sensors and LEDs for monitoring the cycle asciugatura. Disponibile in white and gray.

Towels electric energy-saving product in Italy, the investment in time because:

- 43 times cheaper than rolls of cotton
- 33 times cheaper than paper
- 5 times cheaper than traditional hand dryers

The hand dryer can use with the inclusion of hands in horizontal mode of use suitable for any range of use. The 4 blades maximize airflow ensuring an air speed of 425 km / h and drying in 10-12 seconds.

The absence of resistance to the extreme energy saving, allowing an energy saving of 95% compared to other drying systems.

The towel has been designed according to customer needs:

- the dual sensor startup and sensors luminosi warning allow easy monitoraggio cycle product life and minimize the need for technical assistance, in particular the urgent needs due to a lack of maintenance-monitoring by the final customer.

Integrated Hygiene: antibacterial protection and the environment of use, guaranteed by the HEPA filter H13 against 99.997% of airborne bacteria and the collection of residual water in the pan, no more drain on the ground.

Designing the future: contemporary design & Made in Italy.

Specifications:

- Sensor boot with auto-off safety
- drip tray
- hepa filter
- dual sensor startup
- LEDs for monitoring the drying cycle
- light sensors: check hepa filter, full tank warning, check engine (consumption brushes)
- 100% digital motor
- 100% free from carbon emission in the environment
- Operation: Double detection sensor electronic
- RPM: 32000 rpm

- degree of protection IP 44 - CLASS II
- voltage 220V-240V
- Air volume 187 m3 / h - 52 l / s
- total power of 1100 W
- activation photocell
- power resistance: no resistance
- **Punti di forza** the ecologists, the fastest
- 1100 W motor power
- **tipologia** tradizionale
- Dimensions (HxWxD): 442x350x233 mm
- **Material** plastica
- Frequency 50-60 Hz
- warranty 5 ans
- Air speed 425 Km / h
- Power 1100 W
- weight 4.5 kg
- **Potenza in watt** 1100.0000
- abs material
- Height 44.2 cm
- quality marks CE RoHS WEEE GOST
- **Profondita in millimetri** 233.0000
- horse (2 m) 15 up
- **Larghezza in millimetri** 350.0000
- 5 years warranty
- **Altezza in millimetri** 442.0000
- drying speed 10-13 seconds
- Depth 23.3 cm
- installation height from the ground
- Width 35 cm
- **Tempo di asciugatura** 10-12 sec
- bathroom men 135 cm
- bathroom women 130 cm
- Disabled bathroom 105 cm
