

Pouf in polyethylene with light h6414

An ottoman, but also a stool and side table, for a brighter

The pouf h6414 is a master key design. Ideal for both indoor and outdoor environments, the pouf h6414 was conceived by the imagination of the designer Aldo Cibic.

The pouf h6414 has the form reminiscent of a cute little mushroom and is suitable for use both indoors and giving a little retro and modern at the same time, thanks to clean lines, contemporary and elegant.

Multi-purpose, can be used as ottomans, stool, coffee table and shelf. In addition, the pouf h6414 is impact resistant, high temperatures and atmospheric agents thanks to the composition in polyethylene, linear low density (100% recyclable) that also guarantees a 'good water resistance.
